

Features

An automatic boot washer for hygienic entrance corridors entering into production areas. For cleaning the sole and calf of footwear.

The machine commands a small footprint and is floor-mounted as standard.

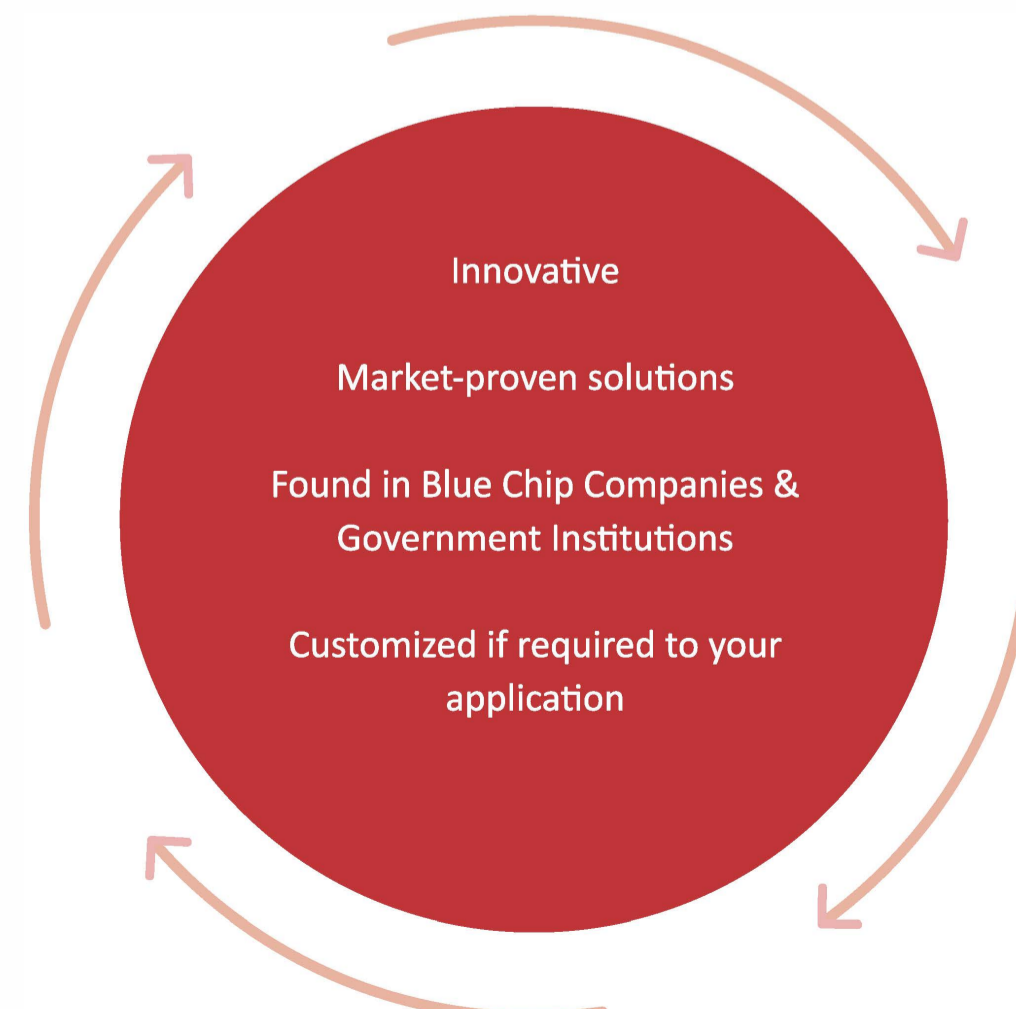

The brush is activated by a stainless steel button on the handle, which simultaneously releases the cleaning agent and water mixture.

Features:

- Stainless steel Grade 304
- Welded body
- Adjustable leg height
- Hard wearing, anti deformation brushes
- Handheld button start/stop function
- with 10 liter plastic container for disinfectant liquid.
